Mohan Saini

Full Stack Developer

mohansaini8772532@gmail.com | +91 79833 02363 | Saharanpur, UP | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer (B.Tech CSE, 2027) with hands-on internship experience delivering production-grade REST APIs and full-stack web applications. Developed and launched AI-powered platforms serving 300+ users. Proficient in MERN stack, Python backends, and cloud deployment. Seeking a software engineering role to build clean, scalable, and impactful solutions.

EDUCATION

B.Tech in Computer Science & Engineering *2023 – 2027*

Shobhit University, Saharanpur

Senior Secondary (XII) – Science | Secondary (X) – U.P. Board *2023 / 2021*

B.H.S Inter College, Saharanpur

WORK EXPERIENCE

Backend Developer – Internship *May 2026 – Aug 2026*

Springer Capital (USA) · Virtual [View Letter]

- Architected and delivered production-grade RESTful APIs using Node.js and Express.js, integrated with MongoDB, JWT authentication, and role-based access control for a US fintech client, reducing unauthorized access incidents by 100%.
- Optimized API response latency by 35% through targeted query optimization, indexing strategies, and systematic performance profiling.

Full Stack Developer – Internship *Oct 2025 – Jan 2026*

Zaalima Development · Virtual [View Letter]

- Designed, developed, and shipped two end-to-end full-stack applications with responsive UIs and integrated REST APIs, accelerating deployment cycle by 20%.
- Deployed two live cloud applications (SyncSpace and TasteTrail) on Render handling 150+ user interactions with 99.9% uptime.

PROJECTS

Online Exam Platform – Shobhit University *Mar 2026 – Present*

- Developed an AI-driven online exam platform adopted by 270+ students, featuring automated grading and real-time result analytics, reducing manual evaluation turnaround by 80%. Stack: Flask, MongoDB, JWT, Tailwind CSS, JavaScript.

AI-Based Resume Builder *Apr 2026 – Present*

- Engineered an AI-powered resume builder with ATS scoring and PDF export, acquiring 30+ active users within the first month and attaining 95% parsing accuracy. Stack: HTML, Tailwind CSS, JavaScript, MongoDB, GroqAI API, Google OAuth.

Chatlet – Real-Time Chat Application *Jul 2025 – Dec 2025*

- Built a real-time messaging application with Socket.IO, Google OAuth login, and Cloudinary media storage, achieving sub-100ms message delivery across concurrent user sessions. Stack: Flask, Socket.IO, MongoDB, HTML, CSS, JavaScript.

TaskFlow – Smart Task & Time Management *Jan 2026 – Present*

- Implemented a MERN-stack productivity app with JWT authentication and full CRUD capabilities, improving personal task completion rates by 40%. Stack: MongoDB, Express.js, React.js, Node.js, JWT, Tailwind CSS.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), Python, TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend & Databases: Node.js, Express.js, Flask, FastAPI, Django, MongoDB, PostgreSQL, MySQL

APIs & Cloud: REST APIs, JWT, OAuth 2.0, Socket.IO, OpenAPI, Vercel, Netlify, Render, Railway

DevOps & Core: Git, GitHub, Docker, Postman, GitHub Actions, DSA, OOP, System Design, Responsive UI

CERTIFICATIONS, ACHIEVEMENTS & LANGUAGES

- **Certifications:** AI Fundamentals (IBM SkillsBuild, 2026) [View] | CC & Tally with GST (NIELIT, 2022) [View]
- **Hackathons:** Art Park ProtoDash (IISc Bangalore) [View] | Frontend Odyssey (IIT Patna) [View]
- **Languages:** English (Professional Proficiency) | Hindi (Native / Full Professional Proficiency)
